It's a problem with me and my treatment-team. Because, they want work out my 4 hours letter, and release of medical information to process my discharge from (2) two month stay in the Hospital to cover the fact conservator and guardian had been mishandling my affairs to the point mental health warrant + protective order it being concealed by pro-active attorney appointed contrarily to the fact. I requested for the continued refusal of service due to incompetence by guardian & conservator.

I'm requesting that they complete transfer of provider of service, due to hardship brought upon myself from their services. Please forward me all of my court papers warranted and to be amended from reversed decisions.
